

Brief Facts

T a h v i e h

History

ORIEN Tahviah is established on 1996 under the name MG installation. In the same year we made our debut in Iranian Air Conditioner Market in both Sales and services. From 2015 onward we transformed to our current Brand and position. We have our own Brand name and put lots of efforts on to make it shine in the market. Western Air is our brand which we developed from scratch and also continue to expand it in any way possible. Right now we have 17 different products on both cooling and heating categories.

Our headquarter is located in the heart of the Iranian capital, Tehran. This office is the base of our operations and our departments like sales, accounting and foreign commercial are located in this office. This family business has more than 40 years of experience and was started from a small business by Mr. Khatib the father in Iranian market of air conditioners. He and his sons never gave up on continuous expansion of the business and new bloods from the family helps this matter well.

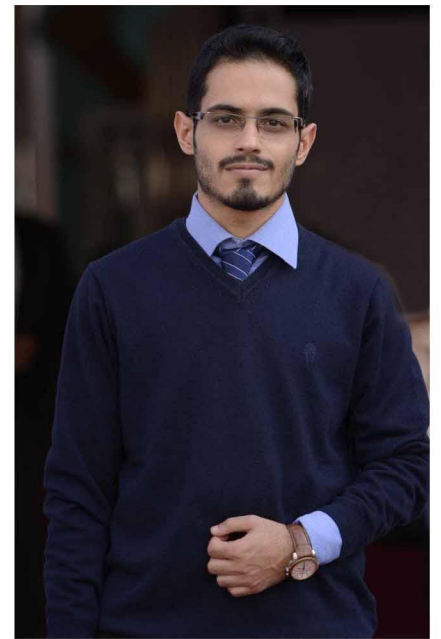

We transformed to a country wide brand from a small business and have plans to become a worldwide mark for the following decades. These guys lead us from the beginning and will do the same in future to achieve all our goals.

**Mr. Khatib
(Founder)**

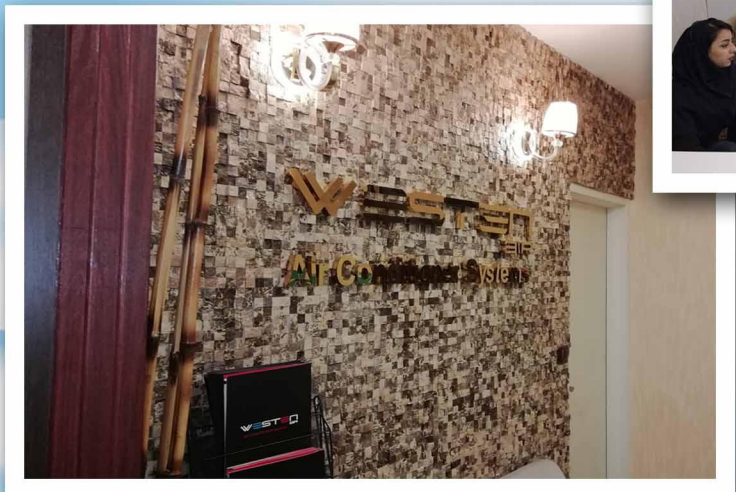

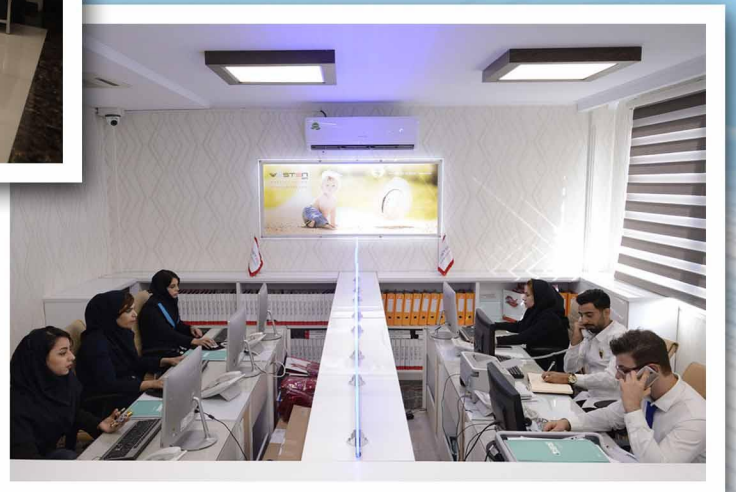

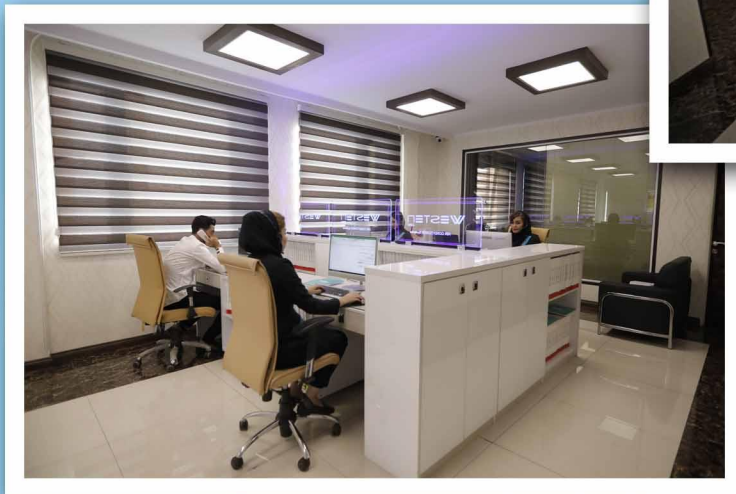

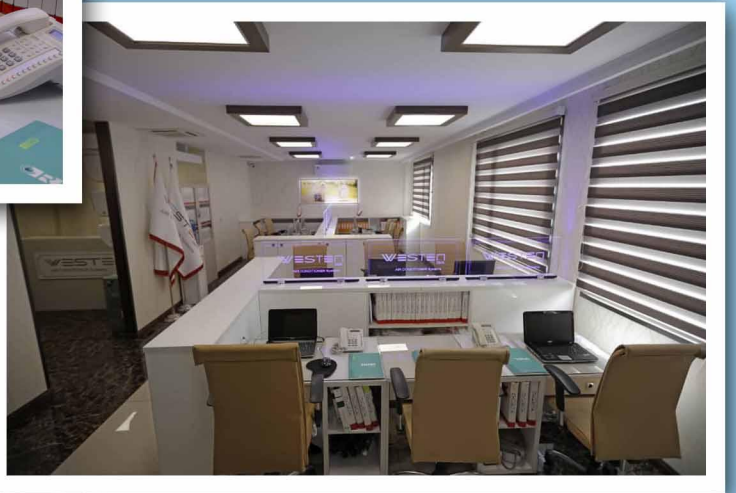

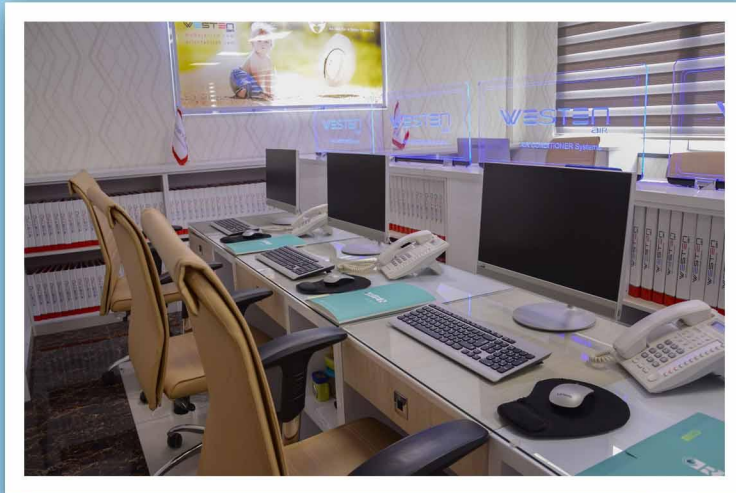

**Mr. Soheil Khatib
(CEO)**

**Mr. Sepehr Khatib
(Head of Sales)**

Office
